# MINING, BUSINESS AND STOCKS.

### REPORT IS ISSUED TO STOCKHOLDERS

Iron Blossom in Annual Statement Shows Progress of Company and Gives Treasury Reserve.

The report of the Iron Blossom which was rendered at the annual meeting is being prepared for distribution to stockholders. Extracts from it give the policy of the management and the financial condition, as well as the amount of development,

SHAFT NO. 1.

The original policy of exploring for a deep mine at this point has been adhered to. In October, at a depth of 1900 feet a flow of water was encountered and further sinking abandoned, pending the exploration of the levels above the

water zone.
The ore reserves in these workings are very promising, and we do not hesitate in saying at no time has there been as much ore in sight in any of the east side mines as is here exposed. There are three distinct classes of ore in these workings, namely, silicious, lead-silver and copper.

The largest bodies of oro developed

are the day or silicious ores, which are located north and south of the shaft on the 560-foot level. Raises have been made in this ore for more than a hundred feet, and the ore has proved to have a width varying from \$ 10.30 feet. These workings are now in availant. These workings are now in excellent shape for shipping a large tonnage of this ore if a suitable smelting contract could be secured. Through drifts north and south of the shaft on the 500-foot level, this ore has been continuously followed for a distance of 1,500 feet, and we are practically certain the will and we are practically certain it wil continue through the entire length of the property. A line drawn from the north end of the drift from these work

north end of the drift from these work-ings to the middle of the big lead stope in the No. 3 workings passes through the middle, and from end to end of a big cave that recently has been dis-cred from the No. 3 shaft. The lead-silver ore has been encoun-tered through a winze sunk 47 feet from the north drift on the 500-foot level, and a drift is now being pushed on the 600-foot level to further develop this strike. this strike.

The copper ore is being extracted

through a winze set south on the 600 foot level which is about 30 feet deep. A drift is also being driven on the 800-foot level to get under these copper ores.

The ore extraction, metal contents and values for the year are as follows: Ore shipments: Dry weight, 15,074,49

Metal contents: Gold, 3,990.78 ounces average per ton .2647 ounce; silver, 414. 724.41 ounces, average per ton 27.511 ounces; lead, 138,637 pounds (see note) copper, 21,669 pounds (see note). Note—The average metal contents per ton of lead and copper are not given at the silicious ores contain none of these

metals. Values: Gross, \$292,704.77, or \$194172 per ton; freight, sampling and treatment, \$140,618.62, or \$9,3282 per ton; net, \$152,086.15, or \$10,0890 per ton.

The average cost for mining this ore is \$6.0631 per moist ton, which, however, includes the following development and prospecting: Shaft, 600 feet; drifts, 2,707.50 feet; crosscuts, 324 feet; raises, 310 feet, and winzes, 80 feet. SHAFT NO. 3.

The ore production from these workings is as follows:

Ore shipments: Moist weight, 22,082,112 tons; dry weight, 20,858,481 tons.

Metal contents: Gold, 3,986,95 ounces average per ton, 1802 ounce; silver, 726,623,61 opnces, average per ton 34,826 ounces; lead, 6,506,414 pounds, average 15,596 per cent.

\$26 ounces; lead, 6.505,414 pounds, average 15.595 per cent.

Values: Gross, \$616,871.61, or \$29.5742 per ton; freight, sampling and freatment, \$249,404.56, or \$11.9570 per ton; net, \$337,467.05, or \$17.6172 per ton.

\$36,46,05, or \$17,6172 per ton.

The average cost per moist ton for mining this ore, including prospecting and development, is \$3,7184. The cost per ton here is much lower than in No. 1, because much more prospecting and development have been carried on from

the deeper shaft to the south.

The following footage was made dur-ing the year: Shaft, 105 feet; drift, 2.395.3 feet; crosscuts, 446 feet; raises, 388.5 feet, and winges 57 feet

588.5 feet, and winzes, 57 feet.

About 800 feet south of the shaft we recently encountered a mammoth cave, having a length of 360 feet and an average width of 80 feet. This, however, has not been developed to any great extent, but sufficient work has been done to justify the belief that there is considerable ore in this cave. If the outline of the cave indicates the length and width of the ore body, as was the case in the Colorado mine, it will be take largest body of lead ore yet disthe largest, body of lead ore yet discovered in the Iron Blosson mine. In order to develop this cave we are now driving a drift on the 500-ft, level, which arting a drift on the 500-ft, level, which will soon reach the locality of the cave, and should demonstrate in part what the possibilities are at this point. The dip of this cave to the north indicates that we may have deeper ores in these workings still further north than have yet been discovered, as we may have passed over them in driving south through barren ground.

The handling of silicious ore is a cuestion to which we have given considerable attention. We consider the smelting charge on this ore far too high and are now making tests with a view of building a cyanide mill, which should make a splendid saving to the company over smelting charges. Thus far to tests have been satisfactory for mill treatment, but not being familiar with the various processes of mill treatment we are going to be very careful to as-certain the exact results from the dif-ferent ores in the mine before a mill is

TREASURER'S REPORT. The following is a statement of each receipts and disbursements for the fis cal year ending Nov. 30, 1910; RECEIPTS.

Prices Sag on Open Board, Though

20,000 Shares Change Hands. Prices sagged on the local board this Prices saged on the local board this morning and there was a noted tendency for a general drop in prices. Colorado, which under heavy sales advanced to 47, lost its gain with scant offerings. Iron Blossom weakened somewhat, probably because the directors will pass the dividend at the meeting on the 10th. There is enough to pay the dividend but it would deplete the treasury. Uncle Sam receded to 55 under light sales. On the open board 6,200 shares of Opex sold from 12½ to 13, closing at that price. Federal Ely was offered at 8, McDonald Ely at 10, Ely Witch at 10, Thompson at 15. West Quincy at 15, Ulntah Treasure Hill at 4½, while Demijohn was 9 at 10½, Bingham Copper, 14 at 15½, and Bingham Central Standard, 14 at 15. The total sales for the day were 20,650 shares valued at \$4,763.

SILVER WEAKER.

Silver dropped to 54% this morning from 54% yesterday. A reduction in the price of this metal means large losses to the Utah mines as there are many that produce a large amount of the white metal. Eastern advices say that the rise was purely manipulative that there has not been an increased demand for the metal, and that the re-action will probably cause it to settle around the same figures where it has been for the last few months.

BROKERS AS ACTORS. Guarded by all of the L. O. B. B. that belong to the local exchange, M. D. Joseph appeared this morning with the diamonds that are effered by that order for the best looking broker that attends the ininstrel show to be given Dec. 13, by that organization. Harry Joseph, although announced as one o the end men has signified his inten-tion to get the prize but B. W. Dixon claims the award on merit, The man-agers have induced Alex Campbell to side actor as a partner for Harry but on account of activity in bidding for New York this morning the condition of his voice may not permit him to appear.

DETAILS OF MERGER.

Information received this morn-ng tending to confirm the reported ng tending to confirm the reported nerger of the Névada-Utah properties Pinche with those of the Prince at Foothe with those of the Trince Consolidated, Ohio-Kentucky, Consoli-dated Pioche and Centennial Pioche, The full particulars have not been made public but it is said that it will e announced that \$500,000 will be polaced at the disposal of the new cor-poration for the construction of a mill at Ploche with a capacity of 500 tons per day and for further development of the different properties. It is also said that it will be announced that the name of the new company will be the "Amalgamated Floche Corporation" and that it will later enter into

the billion dollar copper merger,

## LEASE AND OPTION ON CALIFORNIA MINE

Virginia Mining Company Owns Lease On Property and Option on Control.

The Virginia Mining company is a new, corporation which has just been formed to operate the old C. & C. properties at Park City, together with some additional ground. This corporation has a lease on the California until next July. 1911, and an option on 370,000 shares o the stock until October, 1911, besides

the stock until October, in, because two claims that were originally patented as a part of the '99 and Pique Nos. 1, 2, and 3.

The California has had a varied career, It is incorporated for 1,000,000 shares of which about 600,000 are issued. shares of which about \$60,000 are issued. It was worked from July, 1900 to February, 1902, during which time about 12,000 tons of ore were extracted and treated at the mill. Since that time only assessment work shas been done. The Comstock has been operated off and on for about 20 years. In 1903 about 1,700 tons of ore were found in a pocket and run through the mill. For the last few years the properties have been idle. The workings are through a main funnel which enters on the Comstock part of the ground and crosscuts the entire formation, exposing three different beds of gray lime which is said to be the ore bearing lime of that district. district.

In September of this year, H. G. Sny der secured the lease and option on this property and put men to work in two drifts from this tunnel which were run on the strike of parallel fissures about 60 feet apart and which were tight and showed nothing at the intersection with the tunnel. Mr. Snyder has disposed of all of his interests in this lease and the option for the stock to the Virginia. Mining company of which Judge W. I. Snyder is the controlling party. Judge Snyder in talking of the property said: "These fissures have each opened up "These fissures have each opened up lenses of ore. One is a copper fissure and the other a lead fissure. The copper fissure has a good showing of ore averaging 10 per cent copper, 5 ounces silver and 80 cents gold. The lead fissure has opened up to an ore body averaging from about one to two and one-half feet wide. It carries on an average of 70 ounces silver, 30 per cent lead, 7 per cent copper and \$1.20 gold. We are developing these fissures and in the meantime are also working in the lime beds at intersection with these fissures. We are going to increase the forces in the next 30 days and expect to get out regular shipments from both the lead and copper fissure. In addition the lead and copper fissure. In addition to this ore, there is now exposed in the old workings, about 10,000 tons of zine ore that will carry 12 per cent zine with 7 per cent lead and 6 ounces sil-ver. E. P. Evans of Park City and some of his associates are interested in the financing of the property and we expect excellent results."

#### CONCENTRATES.

The Imlay mine in Humboldt county, Nev. will be started up in the near future employing about 30 men at the mine and mill.

The shipment from the United States assay office to the mint at Denyer was \$137.672.67 for the wortherf November. This is more than \$10,000 larger than former shipment since the

C. Christensen, inventor of the Christensen centrifugal table, has arranged to place three of his tables in the Ohio Copper mill. He claims that he can handle from 200 to 400 tons per day against from 4 to 15 on the present

# LIST WENT LOWEST IN MANY WEEKS

New York, Dec. 6.—Fractional gains were the rule at the opening of the stock market today, with Lehigh Valley, Interborough-Metropolian preferred and Ontario & Western showing exceptional gains of 1 to 14 points. Trading was dult. Board room traders were disinclined to do much in the absence of any important operations by the larger speculative interests and the market in consequence was extremely dull and uninteresting. The tone in general was firm with some showing of strength to the coalers. Lehigh Valley rose 12 and New York Central, American Locomotive and American Bect Sugar 1. St. Louis-Southwestern preferred lost 14 and National Biscuit 1.

Trading came to an utter standstill at times just before noon, pending the publication of the president's message. There was a moderate reversal in prices with a renewal of last week's heaviness in the Gould stocks. St. Louis & Southwestern declined 12, the preferred 24, Denver & Ho Grande 14, the preferred 1 and Missouri Pacific 12. In the special group declines of 2 points in Virginia-Carolina Chemical preferred and 14 in American Woolen were most conspicuous.

Bonds were steady.

The dulness of the fnorning session was continued until the publication of the president's message, which was followed by a moderate solling movement in the course, of which prices of standard issues wegt below yesterday's close. The only confider meyement of the noon hour was a rise of 13 points in Illinois Central. Prices went still lower in the second hour of the afternoon with greatest pressure on Union Pacific, Southern Pacific, Hill stocks, New York Central, Atchison, Lehigh Valley, United States Steel and American Smelting, all of which declined from 1 to 2 points. Announcement that the Reading dividend meeting had been postponed and further advices of increasing slackness in the steel industry together with a feeling of disappointment at the tenor of the president's message were the primary factors.

The market closed active and very unsettled. A heavy selling movement the lowest New York, Dec. 6.-Fractional gains

because of trade conditions. Cook was given to these rumors in advices fro the Pittsburg district which stated the the number of idle men there alread exceeded 15,600. There were also reports of further retrenchment on the part of the railway companies. The market continued unsettled in the final dealings with practically no recovery. Net losses ranged from 2 to 31 points.

ST. LOUIS. St. Louis, Dec. 6.-Wool, unchanged. Territory and western mediums, 21 22; fine mediums, 17@19; fine, 12@13. BOSTON.

BOSTON.

Boston, Dec, 8.—Despite a somewhat uncertain outlook, local woo! merchants view the situation with a good degree of confidence. The supply of wool in Boston is small and there is a fair amount of business, mostly in small lots. Values hold steady.

At the moment fleece wools are neglected. Still considerable fine and fine medium Montana have been transferred on a basis of \$5 cents cleaned. Some Wyoming wools have changed hands at 164 cents in the grease. Scoured 12 months, Texas clips, bring 60 cents, while fall clips are offered at 48 to 50 cents. Pulled wool is dull but there is a fair business in the foreign product.

London, Dec. 5.—The offerings at the

London, Dec. 6.—The offerings at the wood auction sales today amounted to 10.735 bales. Home and continental buy-ers eagerly absorbed, suitable parcels from the miscellaneous selection sold. Prices were steady.

PRODUCE.

CHICAGO.

CHICAGO.

Chicago, Dec. 8.--Liverpool led the way to lower quotations of wheat here today. The reason given for a decline there was that general realizing more than offset the effect of a decrease in the European visible supply. Additional moisture in Kansas formed another bearish factor. The opening was 148 down with May covering the whole range at 952 to 354. A rally to 954 297 followed.

Free selling by cash houses and commission concerns made corn easy. The bears argued that courtry offerings increased sharply wherever farmers were paid 40 cents a bushel. May opened 172 to 2 lower at 48104, touched 481 and fell to 452.

to 48.
Support was poor for dats and there was an easy tone in sympathy with other grain. May started 1 to 471 off at 341 to 317 and declined to 341.
Stack demand with an excess of offerings weakered provisions. First sales

were unchanged to 7ic. lower, with May at 17.20 to 17.25 for pork; 3.875 to 3.90 for lard and 9.425 to 9.45 for ribs.

Wheat—A big decrease in the world's stock of wheat caused an advance, which was added by the belief that the government report tomorrow would be buillish. The close was firm, with May at 971, a net gain of 1.

Corn—Suggestions of a larger crop than indicated by the last government report weakened the market siigntly. The close was easy, with May at 481, a net decilne of 5.

### **COLONEL ROOSEVELT** TO GOV. - ELECT BALDWIN

He Has Written Him Several Times But It Is Understood Letters Maye Been Returned.

New Haven, Conn., Dec. 6 .-- Col. Roosevelt has written to Governorelect Baldwin several times since the election of November, it is understood, but the letters have been returned. There has been no definite adjustment of the controversy which arose over Col. Roosevelt's criticism of Judge Baldwin's alleged attitude towards

Baldwin's alleged attitude towards workingmen's compensation laws, but mutual friends are said to be trying to bring about a reconciliation.

Col. Uliman, president of the New Haven chamber of commerce, has been in correspondence with Col. Roosevelt, in order to pave the way for acceptance by Judge Baldwin of the invitation to address the chamber at its banquet next Tuesday, when Col. Roosevelt will be the guest of Col. Roosevelt will be the guest of

It is said Judge Baldwin insists that a public statement must come from Col. Roosevelt touching on the latter's speech at Concord, N. H., before direc communication will be considered. Pending a statement from Col. Rosse-velt there is no acceptance by Judgo Baldwin of the invitation to the banquet as a guest and speaker.

#### DECISION AS TO WHAT **CONSTITUTES A NEGRO**

Washington, Dec. 5 .- The possession of one-sixteenth negro blood brings a person under the classification of "neperson under the classification of "ne-gro," according to a decision of the district court of appeals today, in the case of Isabell I. Wall, 8 years old, against the board of education. The girl was admitted to a white school more than a year ago, but was after-wards excluded on the ground that she was a negro. The evidence showed that the girl had one-sixteenth negro blood in her yeins.

#### NEVER DRANK, ALWAYS SMOKED, LIVED 105 YEARS

Ebensburg, Pa., Dec. 6.-Pressed by friends for the reason of his good health and long age, James Gallagher, who died here yesterday at the age of 105 years, was at a loss for an answer. He never touched liquor and a answer. He never touched liquor and a clay pipe was his constant companion, Death was due to a stroke of apoplexy. He had never beer sick a day before. Gallagher was born in Donegal, Iroland, Feb. 2, 1805, came to this country in 1840 and became one of the pioneers of the little town in which he died. For many years he was a railroad contractor and acquired a fortune in that business, retiring 30 years ago. He siperintended the building of some of the first railroads in South America. the first raliroads in South America, At the age of 100 he bullt a fine mansion. He is survived by one daughter, two granddaughters and seven great-grand-

bald Horter, professor of pharmacology and therapeutics in Columbia univer sity and author of several books on medical subjects is dead at his home here of pneumonia in his forty-sixt

Prof. Herter was widely known among scientific men through his con nection as treasurer and adviser of the nection as treasurer and adviser of the college of physicians and suggeons in this city. His medical researches on diabetes, acidesis, gastro-intestinal intoxication and pernicious anasmia were particularly notable. He was a United States referee of the department of agriculture a fellow of the American riculture, a fellow of the American Association for the Advancement of Science, and a member of numerous clubs and scientific organizations,

FIRE IN EVANSVILLE, IND.

Evansville, Ind., Dec. 6 .- Fire here caused damage of approximately \$750. 000 today, principally in the plant of the Fendrich Tobacco company. A to-bacco warehouse and several other buildings were destroyed.

# LIBERALS WILL KEEP CONTROL

Election Returns Make It Plain That There Is No Hope for The Unionists.

LONDON WILD OVER RESULT

New House of Commons Will Meet With Parties Practically

Unchanged.

London, Dec. 5.- The position of the parties tonight, after the second day's parties tonight, after the second way pollings in the general election, is: Government coalition, including Liberals, 87; Labor, 14; Nationalist, 16; these constitute the opposition, with a total of 117, to the Unionists!

ithe results merely confirm the opinion formed that as the results of Saturday's contests the Unionists now have no possible hope of replacing the Liberal government in power. The only question remaining is whether the Liberals will return with a large or a small majority.

To gain a bare majority in the new parliament the Unionists must make a net gain of 62 seats. Thus far, with 130 pollings, they have a net gain of only five seats. They have gained 11 and the Liberals six seats.

The gain by the Unionists on Saturday was seven, while the Liberals gained four, Today the Unionists gained four and the Liberals two. A continuation at this rate would fulfill the Unionist prediction that the Asquith cabinet would be more than ever dependent upon the Irish and Labor allies.

It must be remebered, however, that It must be remembered, nowever, that the Liberals lost at the January elec-tions many seats through three-corner-ed contests. Such contests are largely eliminated in the present elections and this may give them sufficient gaines to balance those of the Unionists, On the whole, it seems likely that

On the whole, it seems likely that the new house of commons will meet with the position of the parties ratically unchanged. The question will then arise whether the king will agree in giving guarantees for the creation of enough Liberal peers to force the veto bill through the house of lords.

'Löndon tonight is displaying much enthusiasm and the success'ul candidates are being borne in torchlight processions through the streets. As the returns come in, showing the colseprocessions through the streets. As the returns come in, showing the colseness of the contest, interest increases and vast crowds gather in Fleet street, Trafalgar square and other places where the results are shown, cheering and booing according to their political affiliations.

### UNIONIST PAPERS ARE VERY BITTER

London, Dec. 6.—Taking a line from Mr. Balfour's speech at Sheffield last night, most of the Unionist morning papers blame Premier Asquith for "rushing" the elections on the old register and as a further excuse for the failure of the Unionists to make a better showing, complain that they did not have sufficient time to perfect their electoral organization.

The Daily Telegraph says:

electoral organization.

The Daily Telegraph says:

"If it had not been for the deplorable inferiority of the Unionist organization, both in London and Manchester, the work of stamping out the dollar domination would be still further admined."

vanced."

The Telegraph proceeds to outdo itself in rabid denunciation of the Asquith-Redmond coalition and their intended "plot" to destroy the British constitution. "A more colossal fraud," says the paper, "was never imposed by mendacious charlatanism on ignorant minds inflamed with class hatred by interest paper."

sincere men." The advice of the Telegraph and all the other Unionisi organs to their party today is to work their hardest in the remaining pollings to increase the gains

already secured.
The Liberal papers editorially express their entire satisfaction at the results so far. Small interest is being shown in the women's suffrage movement, the ndependent suffragist candidate, Jac-

independent suffragist candidate, Jacobs, who contested the seat for St. Paneras East, against the Canadian, J. Martin, receiving only 22 votes.

The prime minister speaking at Durnley last night, said:

The veto of the crown, still a technical part of the law of the land, is as dead as Queen Anne, and nobody ladead as Queen Anne, and nobody la-ments or is the worse for its disap-pearance while the evrown stands on a nuch firmer foundation in the affection and loyalty of the British people than when it existed. We propose that the lords veto follow it."

#### DENVER PICKS UP PACIFIC COAST WIRELESS MESSAGES

Denver, Dec. 6.—For the last few weeks wireless messages from vessels standing off the Pacific const have been picked up in Denver by W. It. Smith, a former telegraph operator who has installed an amateur wireless station at his home. Smith kept a careful record of the messages received together with the code signatures, and, according to his atatement, correspondence with the wireless operators at the Los Angeles station has established the fact that the majority of the messages were sent by vessels off the California shore. In a large number of cases the message was received by Smith exactly as taken by the Los Angeles station. The longost distance covered by any of the messages, as far as Smith has been able to ascertain, was 1,500 miles, the message in question being sent from the steamer Pectun, bound for Panama ahd at the time the message was sent standing off the coast of Lower California. California.

Attempts will be made to establish reg-ular communication between Smith's sta-tion and Los Angeles.

#### COALITIONISTS STILL LEADING UNIONISTS

London, Dec. 6 .- The return of a furher list of unopposed Redmodites this her list of thiopposed alithonists again o the front with a total of 131 seats in he'new parliament to 128 now held by the Unionists.

The state of the parties as known at

The state of the parties as known at 5 o'clock was as follows:
Government coalition—Liberals, 90;
Irish Nationalists, 25; Labor members, 16. Total, 131.
Opposition—Unionists, 128.

### John Sharp Higham of the Sowerby livision of York, was the sole Liberal returned unopposed today. FIREMAN WALKER OF THE

BATTLESHIP KANSAS GUILTY

Cherbourg, France, Dec. 6.—Ernest H. Walker, a fireman of the battleship Kansas, has been convicted by a court-martial of having caused the death of Patrick Fitzsinmons, a water-tender of the Louisiana, and sentenced to six years' imprisonment.

The court found that the crime was not premeditated. premeditated.

Fitzsimmons was a participant in a fight between white and negro blue-jackets from the second division of the U. C. Atlantic fleet on Nov. 18, and received wounds from which he died at a hospital on the following day.

The court-martial was held on board Rear Admiral Vreeland's flagship, the Louisiana, on Saturday, and the verdict became known today.

### FORMER UNITED STATES **SOLDIER KEPT HIS WORD**

Edward Lewis, Guilty of Forgery, Returned to Receive Sentence as He Said He Would

Chicago, Dec. 6 .- "I would not disgrace my uniform by failing to keep my word whatever faults I have, I ought to be punished and I came back o take the punishment I deserve." This statement was made to Judge

Ben M. Smith yesterday by Edward Lewis, former United States soldier and at one time a wealthy lumber mer-chant. Three months ago, Lewis plend-ed guilty to forging a check while in-toxicated. He told Judge Smith that he was a lumber salesman and that it he was sent to prison at that time h would be unable to find work when re leased.

He promised that if he was given a chance to work while business was good he would meet his obligations and come back to take his medicine. "Your word as a United States soldier is good enough," said Judge Smith,

"You come here Dec. 5, at 10 o'clock for sentence."

When the hour of 10 arrived yesterday Lewis appeared before Judge Smith. His brother-in-law, an attor-ney, told the court that Lewis already had been punished enough, but Lewis

objected and insisted upon being Judge Smith gave him six weeks in the house of correction.
"You are looking fine," said Judge Smith. "I am glad that you have made Smith. good. I intended to sentence you to 10 weeks, but I will cut it down to six weeks because you have kept faith

with me." with me."

"You see," said Lewis, afterward,
"when I used to drink, I had no idea
how much was enough. When I would
get to feeling good I thought I had
money in every bank in the country. I
did not mean to be dishonest."

#### MISSOURI EDUCATORS IN OLD FASHIONED SPELLING BEE

Columbia, Mo., Dec. 6.—Three collegy presidents, Dr. A. Ross Hill of the University of Missouri, Mrs. Luch W. St. Clair of Christian college hers, and Prof. H. N. Quisrnberry of Stephens college, will take the leading parts in an old-fashioned spelling bee to be held hera Dec. 14. Dr. Hill and Mrs. St. Clair will be copponents.

Each of the leaders will chose the members of their respective sides from smoog the teachers of the University of Missouri. Prof. Quisenberry will give out the words, which will be the most unused he can find in the dictionary.

The spelling bee will be part of an entertulument to be given for the benefit of the university Y. W. C. A.

COURT OF COMMERCE. Probable That Charles A. Prouty and Franklin K, Lane Will be Members. Washington, Dec. 5.—Information from an excellent, if not absolutely au-

from an excellent, if not absolutely authoritative source, indicates that President Taft has determined upon two members of the new court of commerce. They are Judge Charles A. Prouty of Vermont and Franklin K. Lane of California, both of whom are members of the interstate commerce commission. It is understood to be the president's desire to secure for the n

freight rate situation, but who also are familiar with proceedings of the Interstate commerce commission.

It is well known that Chairman Knapp of the commission was considered for the position of presiding judge of the new court, but it is said the president felt Judge Knapp was too valuable in the position he now occu-

ber of the interstate commerce com mission for many years.

Mr. Lane is now serving his second term as commissioner, having been appointed as a Democrat by President
